EVERY MINUTE COUNTS

The genesis of the M37 is from a simple design brief: to combine cruising features and ergonomics, with sport-boat speeds, in an easy-to-manage size. And from there our designers let creativity flow to deliver breath-taking looks, catamaran comfort and an unprecedented driving experience. The M37 features two distinct and refined cabin spaces, with layouts suitable for cruising couples, and families alike, with an enormous deck space fit to entertain 12. With the performance advantages of a catamaran, and making no sacrifices on style or comfort, the M37 is truly unique.

POWER AND POISE THROUGH FORM STABILITY

Catamaran form stability means the M37 is calm in rough conditions, and stable at anchor. So you and your guests will feel the tranquility of a much larger yacht. But this cat has claws: up to a combined 740horsepower, along with our new and unique super-low-drag catamaran design enables 38-knots top speed - numbers normally reserved for 1000hp monohulls.

Unique design featuring super-low drag hull form.

Inboard engines deliver performance without excessive noise.

Twin Turbocharger and common rail fuel injection for superior performance both in fuel economy and acceleration.

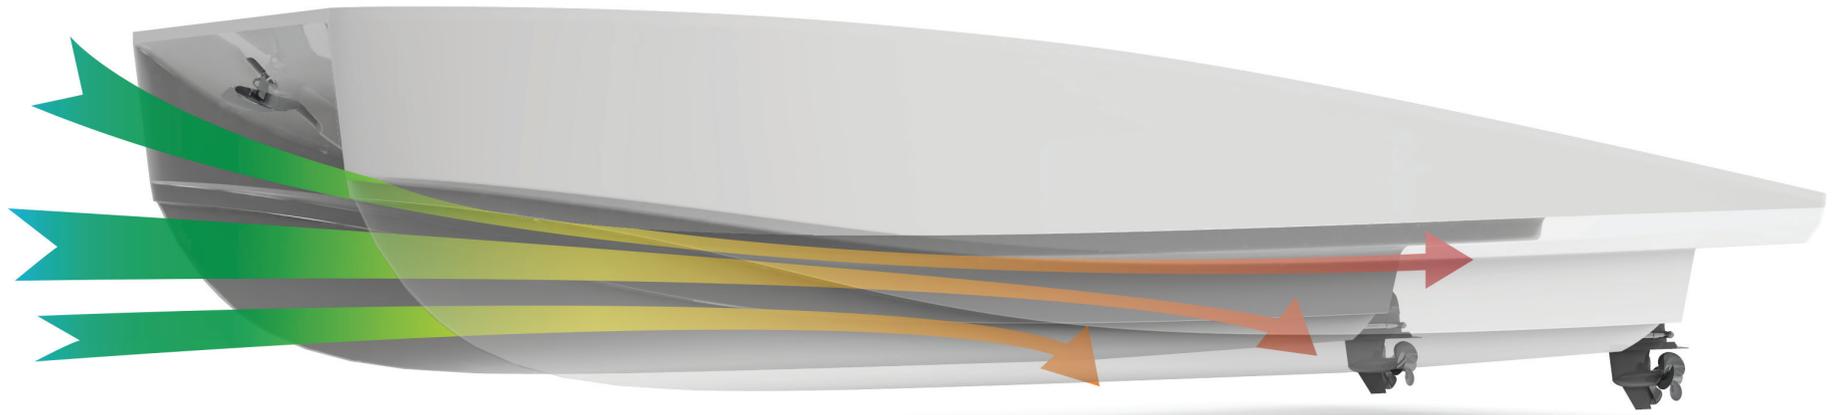

DEEP INSIDE

It's what's on the inside that really counts, and we saved the best secret for last. The M37 has full standing headroom in two beautiful staterooms. We say staterooms because both have the option of a double bed. And for families, there's even the option of a double bed with an additional single for kids or an extra guest. Each cabin has their own shower, sink and electric flush toilet.

- **Double beds in each cabin**
- **American oak interior fitout**
- **Full standing headroom**
- **Two private and spacious showers**

- **SUPREME COMFORT**
- **AMAZING FUEL EFFICIENCY**
- **FASTER CRUISING SPEEDS**

AIR-GLIDE SYSTEM

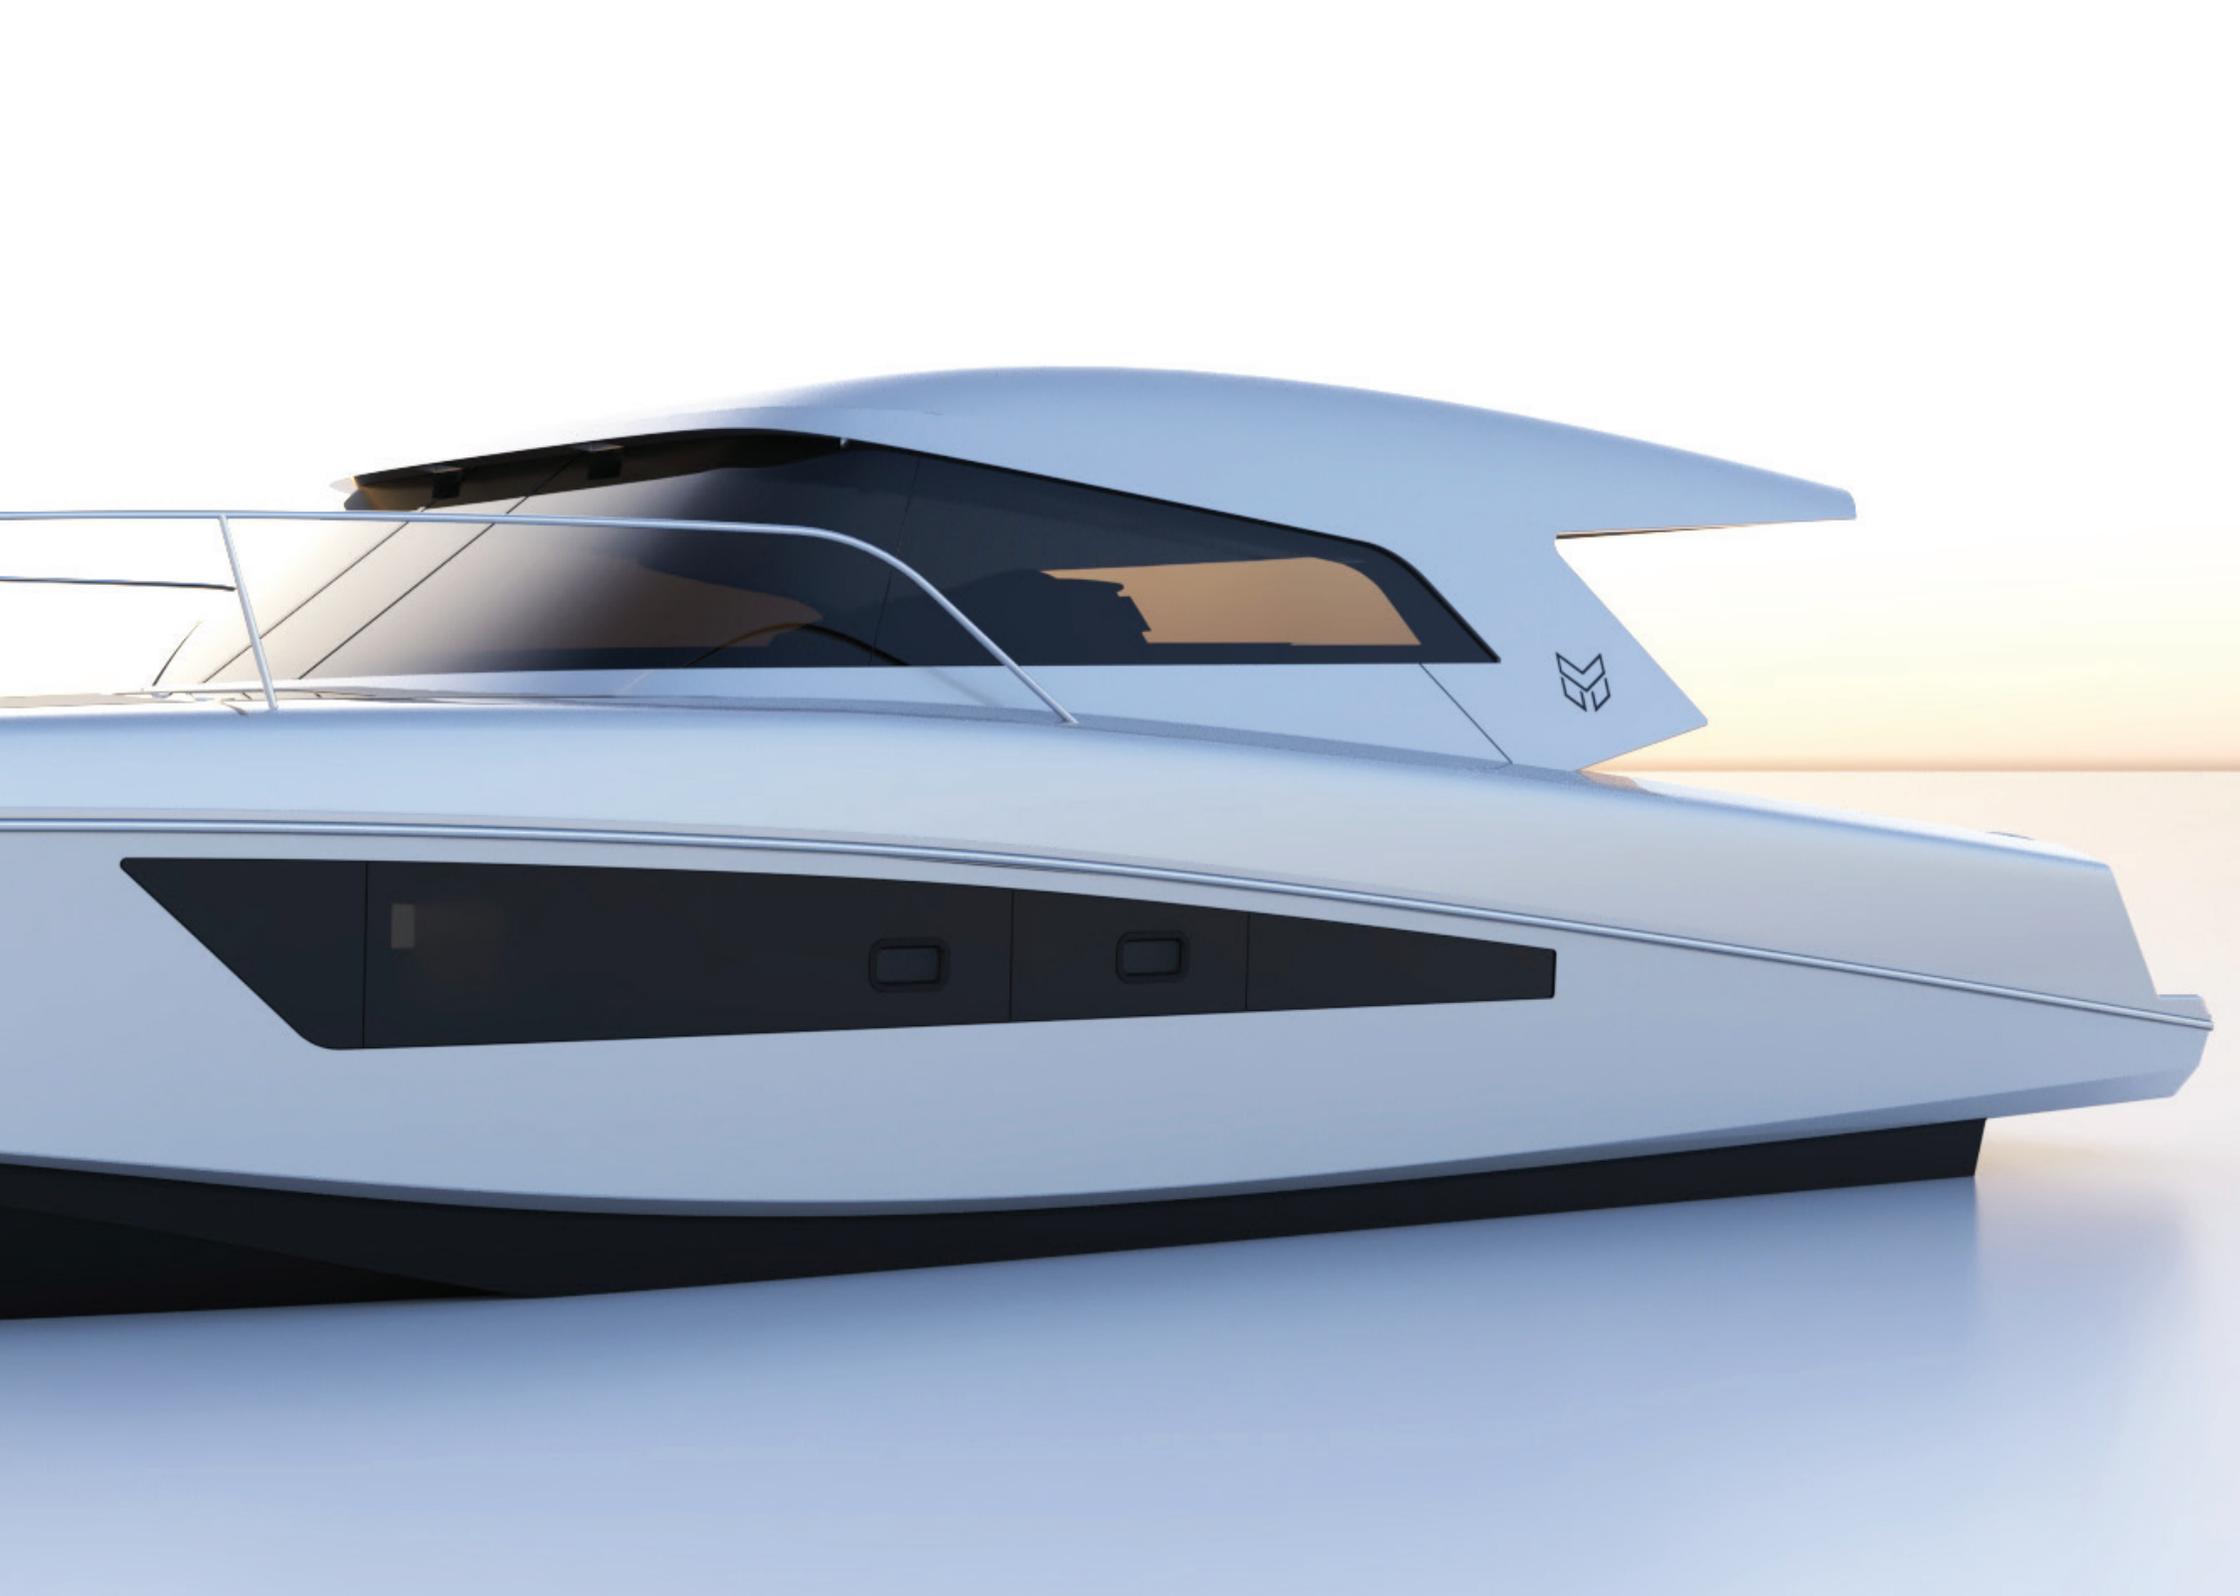

MAKAI Power Catamarans are designed using our Air-Glide* system to create high air pressure inside, and low pressure outside the hulls to generate a unique shock-absorbing cushion. This also increases the hulls efficiency proportionally with speed. That means no more bumpy rides out to your favourite reef and no more slamming over oncoming swells. With a MAKAI Power Catamaran, speed does not come at the sacrifice of comfort.

DAY AND NIGHT

What separates a weekender from a cruiser is comfort and range, but also atmosphere. We have carefully planned mood lighting in the cabins, in the cockpit, and on the foredeck, so the M37 makes you wish the week would never end. Optional C-Zone lighting control enables Day, Night, and Twilight modes. Low engine noise through sterndrive propulsion and careful insulation, keeps sound in step with lighting to set a sustainable atmosphere where work is a distant memory.

- **Premium soundsystem packages**
- **Advanced one-touch LED mood lighting**
- **Illuminated transom shower area**
- **Soundproofed engine compartments**

CAREFULLY CONSIDERED OPTIONS

Our experienced team recognise the need for owners to personalise their boat, and our options list features everything from hydraulic swim platforms, to smart device integration. Tailoring your M37 catamaran can be as fun as driving it.

Up to 12" Raymarine Chartplotters

Raymarine Axiom Pro Navigation Instruments

Easy Manoeuvring Through Joystick Control

Advanced Mood Lighting

Twin 320hp Engines

Optional CZone Touch Screen Control

COLOURS & MATERIALS

The M37 is the only boat in her class to offer premium textiles and joinery throughout. Paints come with a 5-year guarantee against fading and are offered in a range of metallic and gloss options to make every M37 unique.

Standard Walnut Floor

American Oak Interior

Optional Flexiteek Decking

Optional Infinity Woven Flooring
